**Subject:** Update on Commission Audit Records Release

Good afternoon Chairman Steele and Commissioners,

I would like to update each of you on the status of the audit records that I had informed you would be available by the end of the day yesterday. Unfortunately, we experienced technical difficulties with the download of the documents. This technical difficult would have prevented certain documents from being viewed by the public. We currently have been working on this issue since last night to be available to get these documents to you and the public as soon as possible. It is my hope to have the available documents on the clerk's website by the close of business today. More documents will be released in a new folder on the website as my IT Department is able to ensure the access will be available. As the additional documents are made available, either myself or member of my office will notify you. I apologize for this delay to you and the public.

Thank you.

Rachel M. Sadoff
