Commission Chambers

A. CALL TO ORDER 5:00 PM

Present: Commissioner District 1 Rita Pritchett, Commissioner District 2 Tom Goodson, Commissioner District 3 John Tobia, Commissioner District 4 Rob Feltner, and Commissioner District 5 Jason Steele

B. ZONING STATEMENT

The Board of County Commissioners acts as a Quasi-Judicial body when it hears requests for rezoning and Conditional Use permits. Applicants must provide competent substantial evidence establishing facts, or expert witness opinion testimony showing that the request meets the Zoning Code and Comprehensive Plan criteria. Opponents must also testify as to facts or provide expert testimony; whether they like, or dislike, a request is not competent evidence. The Board must then decide whether the evidence demonstrates consistency and compatibility with the Comprehensive Plan and the existing rules in the Zoning Ordinance, property adjacent to the property to be rezoned, and the actual development of the surrounding area. The Board cannot consider speculation, non-expert opinion testimony, or poll the audience by asking those in favor or opposed to stand up or raise their hands. If a Commissioner has had communications regarding a rezoning or Conditional Use Permit request before the Board, the Commissioner must disclose the subject of the communication and the identity of the person, group, or entity, with whom the communication took place before the board takes action on the request. Likewise, if a Commissioner has made a site visit, inspection, or investigation, the Commissioner must disclose that fact before the Board takes action on the request. Each applicant is allowed a total of 15 minutes to present their request unless the time is extended by a majority vote of the Board. The applicant may reserve any portion of the 15 minutes for rebuttal. Other speakers are allowed five minutes to speak. Speakers may not pass their time to someone else in order to give that person more time to speak.

G.12 Public Hearing, Re: Colleen Mary Golub Revocable Trust (Kim Rezanka) Requests a Small Scale Comprehensive Plan Amendment (23S.12), to Change the Future Land Use Designation from NC to CC (23SS00012) (Tax Account 2627864)

Chair Pritchett called for a public hearing to consider a Small Scale Comprehensive Plan Amendment (23S.12), to change the Future Land Use designation from NC (Neighborhood Commercial) to CC (Community Commercial) on property located on the southeast corner of North Wickham Road and St. Andrews Boulevard, Melbourne.

Jeffrey Ball, Planning and Zoning Manager, stated he will read G.12. and G.13. into the record at the same time; however, the Board will need to make separate motions for each Item; Item G.12. is Colleen Mary Golub Revocable Trust requests a Small Scale Comprehensive Plan Amendment 23S.12 to change the Future Land Use designation from NC to CC; application number is 23SS00012; it is Tax Account Number 2627864; and it is located in District 4. He went on to say Item G.13. is Colleen Mary Golub Revocable Trust requests a major amendment to a Planned Unit Development (PUD); application number is 23Z00051; the Tax Account Number is 2627864; and it is also located in District 4.

Kim Rezanka, Law Firm of Lacy Lyons Rezanka, expressed her appreciation to the Board for taking her early as she has to be in Palm Bay at 6:00 p.m. for a city council meeting; she stated she is here to represent the Colleen Mary Golub Revocable Trust on two items; the first is to change Neighborhood Commercial to Community Commercial on 1.71 acres; this is to accommodate a carwash drive-through; and currently in NC a person cannot have a drive-through, so that is the reason for that request. She continued by saying County staff has recognized that this is an infill project, that there are no material violations in any relevant Policies in the Comprehensive Plan; they would be asking for the Board's approval to change the Comprehensive Plan; the second item is a rezoning; this is an old 1984 Zoning Ordinance for the Suntree PUD; it started at over 500 acres; and now it is over 2,000 acres, so this was a 1984 amendment Zoning Ordinance that did not give any zoning standards. She added in order to go forward, they had to provide zoning standards for this piece of property; they are actually amending a 1984 Ordinance to allow for BU-1 uses so they can have the carwash; County staff has also recommended, or acknowledged that this is appropriate; Planning and Zoning recommended approval of both of these items unanimously; and she is asking for approval of both items. She noted she has met with Commissioner Feltner and with staff; they have asked for a change that the applicant is agreeable to, to limit access off of North Wickham Road; and with that, she is here to answer any questions the Board may have, or to respond to any questions from the public. She pointed out this is on the east side of Wickham Road; at the Planning and Zoning meeting there was a lady that was confused and thought it was on the west side; but this is not encroaching on residential; and this is in the commercial area of North Wickham.

There being no further comments or objections, the Board adopted Ordinance No. 23-19, amending Article III, Chapter 62, of the Code of Ordinances of Brevard County, entitled "The 1988 Comprehensive Plan", setting forth the Seventh Small Scale Plan Amendment of 2023, 23S.12, to the Future Land Use Map of the Comprehensive Plan; amending Section 62-501 entitled Contents of the Plan; specifically amending Section 62-501, Part XVI (E), entitled the Future Land Use Map Appendix; and provisions which require amendment to maintain internal consistency with these amendments; providing legal status; providing a severability clause; and providing an effective date.

Chair Pritchett called for a public hearing to consider a request by Colleen Mary Golub Revocable Trust for a major amendment to a Planned Unit Development (PUD) on property located on the southeast corner of North Wickham Road and St. Andrews Boulevard, Melbourne.

Commissioner Feltner advised on Item G.13., out of a concern for the traffic, as Ms. Rezanka mentioned, there is a condition; and he will let Mr. Ball read that.

Mr. Ball stated the proposed condition would read, "Ingress and Egress access to the site via Wickham Road shall be in accordance with Plat Note 5 of Mercedes Plaza Plat recorded in Plat Book 53, Page 47.

There being no comments or objections, the Board approved a major amendment to a PUD, with conditions to include ingress and egress access to the site via Wickham Road and shall be in accordance with Plat Note #5 of Mercedes Plaza, Plat recorded in Plat Book 53, Page 47.

There being no further comments or objections, the Board approved the change of zoning classification from IU-1 to BU-2, with a Binding Development Plan (BDP) limited to all BU-1 uses, and the only allowable BU-2 uses being mini-storage, outdoor recreational vehicle, and boat storage, for property located on the northeast corner of Micco Road, and Ron Beatty Boulevard, Micco, as requested by Charles Steven Douglas and Debra Kay Douglas, Trustees, and Sandra J. He continued by saying the reason for the CUP is because this is not classified as a restaurant; the County changed its code a little while ago to allow for administrative approval for restaurants that have food in 51 percent of the gross sales; and since this would not classify that, this application requires a CUP.

Commissioner Tobia stated since the Commissioner who resides in this District is a teetotaler, it is more appropriate that he makes the motion to approve Item G.6.

There being no further comments or objections, the Board approved the request for a CUP for alcoholic beverages (beer and wine only) for on-premises consumption in conjunction with a bar in a PUD zoning classification as requested by RNK Viera, Inc., on property located on the south side of Pluckebaum Road, east of South Range Road, Cocoa.

G.10. Public Hearing, Re: Malcolm R. Kirschenbaum (Cole Oliver) Requests a Small Scale Comprehensive Plan Amendment (23S.15), to Change the Future Land Use Designation from NC and CC to All CC (23SS00015) (Tax Account 2501390)

Chair Pritchett called for a public hearing to consider a request by Malcolm R. Kirschenbaum to consider a Small Scale Comprehensive Plan Amendment (23S.15), to change the Future Land Use designation from NC (Neighborhood Commercial) and CC (Community Commercial) to all CC, on property located on the west side of South Courtenay Parkway, south of Cone Road, Merritt Island.

Jeffrey Ball, Planning and Zoning Manager, stated this is Malcolm R. Kirschenbaum requests a Small Scale Comprehensive Plan Amendment (23S.15) to change the Future Land Use designation from NC and CC to all CC; the application number is 23SS00015; the Tax Account number is 2501390; and it is located in District 2. He went on to say Item G.11. is Malcolm Kirschenbaum requests a change of zoning classification from BU-1-A with an existing Binding Development Plan (BDP), to BU-2, with removal of existing BDP, and adding a new BDP; the application number is 23Z00053; the Tax Account number is 2501390; and it is also located in District 2. He noted there is in the record an addendum provided by staff that outlines the proposed BDP and the conditions.

Jim Trauger, Trauger Consulting Engineers, Melbourne, Florida, stated he does not have anything to add; and he would like to reserve his time if there are other speakers to hopefully address their concerns or comments.

Maggi Dutczak stated she was unable to attend the Planning and Zoning meeting; she has some very big concerns; she has lived here her whole life; she bought a house; she has had it for 22 years near Tropical Elementary, which is where she went to school; she has been lucky because there is an empty lot behind her, which is what is being talked about; but she has a concern about the BDP and the amendment. She noted from what she understood, and this happened before, is that the BDP says to go to BU-2 but they want to build this thing; it is currently BU-1-A, and there are big differences between 1-A and 2, so when she reads the BDP it says it is for the boat and RV storage, which is BU-2, and then it says and all other uses of BU-1; she would like a clarification, because what she is reading is if they do not do the boat and RV, which normally it has to go back to the existing Code; it is basically a blank check and ad hoc easy into BU-1; and she really did not understand that. She pointed out that is her

concern because that is another ball of wax with her; they are talking and seeing what they are doing, they are putting the buffer in while she is concerned about other things; the staff comments are awesome; all of the answers to make sure the regulations were good was perfect, it helped keep her up-to-date; but water going down, because the one corner is really close to her property; and she really wants to make sure there are not puddles in an area that never floods, because obviously, according to regulations, they are going to have to build up, and she is low. She commented that is the main concern she has with it, but it has nothing to do with zoning or Board, it is just a concern she wanted noted; another thing is they are concerned about noise and other stuff; from what she understands, it is going to be operated 24 hours; obviously, she does not want to get woken up at 4:00 a.m. with bay doors opening, bay doors closing, someone washing off their cars or RV's, so the lights, sounds, they will be interested, as long as they adhere to that; they are concerned it is going to be turned into something; and they all see things that are either storage areas that are either repairs, she hates to say this, it sounds derogatory, but a men's club or boy's club, they go there partying or whatever. She advised there is nothing in here that says it is supposed to be a boat or storage; she asked how the Board ties that; and she stated those are her big concerns, but her biggest concern is the clarification, because that is a totally different thing if they are agreeing to BU-1 no matter what.

Chair Pritchett asked if the BDP diminishes the Code requirements.

Mr. Ball replied it does not; what he will tell the Board is that the BDP would limit the uses to the property to BU-1 uses, and only the BU-2 use of the mini-storage and the RV and boat storage to be indoors; and that would be the only use allowed in the BU-2 district that would not be allowed in the request in BU-1.

Michael McGraw stated he has been on that property for 21 years; they have been through some shenanigans of people wanting to build stuff back there, car washes, and it always gets thrown out at some point; he thinks they are a little more serious this time, so he is concerned about quality of life issues with the noise; he does not want people building this big storage unit, guys going in and leasing three units doing a car restoration, putting small blocks in their Chevy's, and stuff like that; and to run compressors and all of this noise right behind them. He pointed out this was a beautiful lot at one time, and it has been literally leveled; his view is now the back of a 7-Eleven and a preschool; he understands progress; but he wants to make sure what they say they are doing is what they are going to do; and if they do not do that, then it will regress back to the original zoning. He added he knows they are supposed to be putting up a big wall around it; he guesses when going to BU-2, a person has to put a concrete, six-foot wall around the property edges; they are trying not to do that; they are saying they are going to put up an eight-foot PVC fence; there has been no mention of how tall this building is going to be; and there has been no mention if the garage doors are going to be metal panel doors that literally when picking up a boat a person does not go at noon, he or she goes at 6:00 a.m. He noted he does not want to be listening to these garage doors going up and down; they have suffered over the last 10 years with that lot with the owners of an airplane school that has zero regard for the neighbors in that area, and they are tired of it; they do not want another noise issue to be coming about; 2Fly has just destroyed the quality of life; and he does not want it destroyed any further.

Chair Pritchett asked if the airplane school is located on that same piece of property.

Mr. McGraw responded no, the airport is across the street, but the flight pattern for takeoff and landing is directly over Ms. Dutczak's and his house; everybody says not to buy a lot next to an airport, but he bought the property before the flight school was built; it has progressed since

then to become Little LaGuardia; and when he says that, he is talking about takeoff and landings every 30 seconds.

Mr. Trauger stated the uses would be all that is in BU-1, and then just the single-use of indoor boat and RV in BU-2; there is BU-1 directly to the north and to the east of the property; over by the airport, there is a bunch of BU-2; there is a lot of BU-1's, BU-2's kind of spread throughout this area; regarding the drainage, he hopefully will be the civil engineer on the project, and they have to meet all of the County's LDR's on that; and there will not be any off-site drainage issues passed off to the residents. He went on to say there is a large drainage canal off of the back side of the property that would be the northwest, which should handle any of the water that comes off of this as the natural conditions currently do; as far as the noise goes, it is across from the airport, they are not asking for any relief from the land development regulations or noise ordinances; they will meet that; and he thinks the compliance is already in place with Code of the County as well. He advised he is happy to answer any questions.

Commissioner Goodson asked if there is a time limit on something like this regarding operation from a certain time in the morning to a certain time at night in the Code.

Mr. Ball inquired as far as the noise perspective.

Commissioner Goodson replied no, just operation; and he asked is there a time.

Mr. Ball responded the Code does not regulate the time of use.

There being no further comments or objections, the Board adopted Ordinance No. 23-22, amending Article III, Chapter 62, of the Code of Ordinances of Brevard County, entitled "The 1988 Comprehensive Plan", setting forth the Tenth Small Scale Plan Amendment of 2023, 23S.15, to the Future Land Use Map of the Comprehensive Plan; amending Section 62-501 entitled Contents of the Plan; specifically amending Section 62-501, Part XVI (E), entitled the Future Land Use Map Appendix; and provisions which require amendment to maintain internal consistency with these amendments; providing legal status; providing a severability clause; and providing an effective date.

Tracey Higginbotham replied bees; and he also has adjacent property that is zoned AU.

Chair Pritchett asked if it is the one right below it.

Mr. Higginbotham responded the one south.

Chair Pritchett stated her only concern would be, and she thinks the County has had this problem lately with certain things, she asked if Mr. Higginbotham would be willing to do a Binding Development Plan (BDP) that he would not have any overnight, commercial lodging.

Mr. Higginbotham replied he might stay out there with his RV.
